Wed. Morn

Hello darling, -

Boy, I'm tired today -
yesterday is my bad day. Miss
Pond's Day Off and so I'm on
straight duty from 7:30 -
9:00 PM. And believe me that's
tough. Not that the work is so
hard is the responsibility &
the steadiness I need. It
keeps you going anyway. I do
wonder I think Miss Pond is
rather selfish - but then it
doesn't do any good to
think so I suppose. She has
been teaching me more lately -
so I feel better but I'm still
awfully guided. However, I
suppose any job I was in would

guide me.

Why, darling, it doesn't bother me me at all to have you going out with Kitty. It never even sinks into my skull. I guess I'm just conceited enough never to worry about you liking me. I never conceive of you liking anyone else. However, - go out all you want to.

Are you using the Country Club any? A I keep wondering about the boys in the lab & am sure you'll see. Do you like them or don't you care about making their acquaintance. Oh well, I'm no one to criticize so I won't. I'll bet in any other job you might get (and hope) that the people might be more congenial - esp. a gov't job.

You know the idea of a new job - keeps me up no end, - yes I mean. I think

one of the main drawbacks of "us". I
can't get all wrapped up in
you and, encourage you & stuff
because I don't know it and
it isn't the type anyway -
like a doctor, a teacher,
something. But then if you had
a really in good job - any
wonder it is be wonderful. I don't
know what - anyway I
sometimes don't like the idea of
you being stationed at some red
factory or something. But do
something new & different. Yes, I'll
trade security ~~for~~ for that -
as soon as you're absolutely
sure of yourself. I agree with
you there, too. I'd rather wait
to find out if you are -
how long I want to wait is the

freedom. Well, too long.
Say, deanie, how about me & these
pictures for me - I do want me &
I will pay you - honest!

Today is mt. day - if it
doesn't rain. This went to a
place about 6 mis. distant, and
drain & hike back. Fun I think.
I hope the cables stands up - is all
clean now - I think my
instruments are about cleared up.
I feel good. But by your next
letter I'll no doubt be needing
sympathy again, ya I will.
Right up it looks funny but I
guess it'll clear, maybe.

I'm also OK mentally - in
fact have been leaning quite
a bit of fun me very
certain.

Well, deanie I have to
go to infirmary to find sleep.
will this, take Mrs. Nutter some
clothes. Then get ready for lunch. Golly
